

VERUSRx

ACCESS FORMULARY DRUG LIST

EFFECTIVE: JULY 1, 2025

Content Summary:

About this drug list	3
How to read this drug list	3
How to find your medication	4
Covered drugs	5

View the drug list online

This document was last updated on 6/18/2025.* You can go online to see the current list of medications your plan covers.

VerusRx Member Portal
www.verusrx.myrxplan.com

Login with your credentials, and from the main menu, select "Prescription Drug List"

VerusRx's Customer Service team is a phone call away, available 24/7 and ready to assist you with Benefit Overview, Eligibility, Claims, Prior Authorization, and much more.

Tel: 800-838-0007
Fax: 800-856-0327

Email: CustomerService@verus-rx.com

About this drug list

This is a list of the medications included in your prescription plan. **It is not, however, a complete list of products that are on the formulary, nor does it guarantee coverage.** Please ask your prescriber to consider preferred medications from this list when medically appropriate.

Log in to the VerusRx Member Portal, or check your plan materials, to see all of the medications your plan covers.

How to read this drug list

Use the chart below to help you read this drug list. This chart is just an example. It may not show how these medications are actually covered on the 2025 Access Formulary List. Medications are listed by the condition they treat, then listed alphabetically.

The formulary is the list of drugs included in your prescription plan. Ask your prescriber to consider PREFERRED medications from this list when medically appropriate. **Inclusion on the list does not guarantee coverage.** The following list is not a complete list of products that are on the formulary.

Newly FDA approved medications are subject to evaluation by the Plan for coverage status and formulary placement prior to inclusion in the Prescription Drug Benefit including the Specialty Drug Benefit.

Abbreviations next to medications

In this drug list, formulary status (i.e., generic, preferred, or non-preferred) and extra coverage requirements (i.e., prior authorization) are indicated to the right of the medication. Here's what they mean:

(G)

Generic Medication

Generic medications are denoted by (G). The most affordable medications.

(P)

Preferred Medication

Preferred medications are denoted by (P). Ask your doctor about choosing a preferred medication.

(NP)

Non-Preferred Medication

Non-preferred medications are denoted by (NP). The more expensive medications.

(SP)

Specialty Medication

Some medications are considered specialty medications. These medications are denoted by (SP) and are available through our specialty pharmacy network.

(PA)

Prior Authorization

Certain medications require VerusRx's approval before they are covered by your plan. These medications are denoted by (PA). Unless your doctor requests and receives approval from VerusRx, your plan will not cover these medications.

How to find your medication

Medications are organized alphabetically in the table below. If you cannot find your medication, please use the search feature or contact our customer service team for assistance.

This list contains injectable medical drugs covered under medical policies. For specific questions about your coverage, please call the phone number printed on your member ID card.

For the Health Care Provider: Please prescribe PREFERRED products and allow generic substitutions when medically appropriate.
